EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeramie J. Keys (Reg. No. 42,724) on 12/22/2005.

The application has been amended as follows:

In claim 1, line 8, the phrase "the communication link" has been corrected to --one of the communication links--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose all of the limitations of the claims as specified in the amendment of 10/3/2005. For example, U.S. Patent Application Publication 2004/0090954 to Zhang et al is the closest art of record. Zhang discloses many of the limitation of the independent claims and is solving a similar problem. However, Zhang does not disclose the limitation of the gateway in communication with the controller through communication link distinct from the computer network. Further, Zhang does not disclose the limitation that the controller sends a call processing request to the gateway through one of the communications links, the limitation that the switch parks the communication at the gateway through one of the communications links, or the limitation that the gateway communicates with the computer network to obtain a response to the query from the controller to process the communication. Instead, in Zhang, the SCP directly contacts the user's computer via the computer network to obtain the response to the query

without the use of the gateway. Thus, as stated in the application, the behavior of the system with respect to the gateway differs from the prior art of record and the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
